Hosting Services

If website health and security make you uneasy, leave your concerns to Top Of The List!

Our Managed WordPress Hosting package provides practically worry-free website health, while the + Maintenance plan adds additional perks for email, page speed, virus recovery, and even 2 hours of consulting per year.

Managed WordPress Hosting

- 24/7 support
- Upgrades to WordPress core, plugin and theme
- Highest quality hosting, performance, and security
- Lightning fast - world-class CDN
- Maximum uptime with constant monitoring and "auto-healing technology"
- Maximum security prevents hackers, viruses, and malware
- Daily scans for viruses
- Nightly backups
- Free staging area
- Superior, scalable infrastructure
- Free SSL for your domain
- Free one-time migration from existing host
- DNS configuration for hosting
- Quarterly hosting reports

Hosting + Maintenance

- Includes everything in Managed WordPress Hosting plus the following:
- SendGrid email configuration for website forms ensures the utmost reliability**
- Backup restoration available
- Page speed monitoring & improvement updates
- Up to 2 hours per year: consulting, plugin additions, configuration or website updates
- Recovery from malware or viruses
- Monthly hosting reports

** This is only configurable when "from" and "send to" emails use the same domain as the website.
